- Page 1-2: Instructions
- Page 3-11: Question/Lyrics/Correct Answers Sheets
- Page 12-13: Answer Sheets (If you want to write down the answers, but I recommend you answer verbally for this game)

Instructions:

One person acts as the Game Master. First you may want to print out the last two pages of this document and provide one copy of the pages, which contains the sheet to fill in the answers of the game, to each participating person or team, however this game can easily be done verbally as well. You might also need pencils and a source to play sounds from, such as a PC or a phone with speakers. You then need some program to play the Robot Lyrics on, such as the voice option on Google Translate or any other similar TTS (text to speech) program.

After that, you, the Game Master will copy the lyrics below, one song at a time, and paste them into the TTS of your choice and press play. The "robot" voice will then speak these lyrics out loud. The goal of the game is to guess the name of the song, by recognizing which song the lyrics belong to. You can of course also add the rule to guess the band/artist as well. The participants of the game will then either fill in the answer to that question, which is the song name only, on their answer sheet. They can also say it out loud, either one person/team at a time, or perhaps whoever knows the answer first will shout the answer and get a point, how you want to play it is up to you! Repeat the process for each of the 25 songs, or as many as you want to use!

The lyrics are taken from sections in popular Rock songs. It can be from any part of the song, not only the beginning. Most songs have about 10-15 sentences of lyrics, but it can vary a bit. Every song's lyrics will get easier and easier the more you listen. As an example, at first the lyrics might be a bit rough, but they end with an easy chorus from the song. You can of course pause the playback or cut out the chorus if you think the game becomes too easy.

Example how to play: You copy the lyrics for Song 1, let's say it's Queen - Bohemian Rhapsody, and paste them into a TTS program. You then click on the microphone or play icon those programs usually have, and the lyrics are played out loud. Then the participants fill in the answer on their answer sheets or say it out loud if you play it verbally. Rinse and repeat for all 25 questions or however many you chose to play.

After all 25 questions are done, the participants hand in their sheet (if you used it) and you compare it to the correct answers, whoever has the most correct answers is obviously the winner. At a tie, it's up to you to decide what to do as a tie breaker!

Should you have any questions or if you find anything incorrect in this game, you can always contact me at the website. I hope you enjoy this game!

We're all living in Amerika.

Amerika ist wunderbar.
